Hi Steve,

Apologies for the late response – we've had some staffing availability issues this afternoon. I'm afraid (at this point) no, nothing is totally ready. I want to do one final check but that will be completed tonight for whenever you're available tomorrow morning. Thank you for understanding!

Gino,

Just wanted to check if there are any documents I can upload to FDMS this evening. I need to sign off at 5:00 today.

Thanks.

To Julia – ok...just changed the item 4 so it is correct...

To Stan – many of us are trying very hard to get this done by early tomorrow....

From a timing perspective, please note that it can take up to two hours for me to load all the documents and that's when I'm in the office and Drupal is working perfectly. I will upload everything that is ready tonight in an effort to speed the process.

Please try to get RE done for posting as soon as possible. Do you think this will be ready for posting to the web by noon tomorrow

All:

I just uploaded the asbestos charge questions to the public OSCP one drive folder...so now all that is left is the RE (and transmittal memo)...

Progress Report on those items:

- I did verify from Diana Wong that the SACC date is set for four days beginning April 27 (so April 27-30)...so I have changed the memo to reflect that
- Will send a PDF of the memo soon to Sheila for signature
- Work is moving, but is slow, on the RE...plan to be done by tomorrow (but not sure how late)...will have a better sense by late tonight/early tomorrow

Finally – a question to Susanna/Julia – hope the other files loaded last night are ok...let me know if any re-work is necessary so I can factor that in/delegate as needed.

Thank you all and stay well.

Subject: Asbestos Supplemental Documents - all uploaded for OPPT IO review (Susanna/Julia)

All – I added Julia to this e-mail as well....

All of the supplemental Asbestos files (see below) have been uploaded for review (508 compliance already done)...they are all currently in the public folder ([link](#)); - both hero.net (internal or SACC) and public versions are here for review purposes only; if internal ones are ok they can be moved into the SACC folder.

Julia/Susanna – let me know if you find any issues....

The last two will be the Charge Questions and the RE

Subject: RE: First document uploaded

Thanks Gino. Just to clarify, when I see files in the OneDrive folder, they may still be under review by Susanna and Julia, correct? Therefore, I should await confirmation that specific document are ready to upload into FDMS.

Thanks again.

Subject: RE: First document uploaded

Steve...thanks....to give you a quick synopsis:

- Asbestos is a "small" RE – a little less than 300 pages (much less than TCE – 750 pgs)
- We have a total of 12 files (10 supplemental plus the charge and RE)
- None of the supplemental files are zip files; 2/10 are excel files
- Supplemental files are in various stages of QC/completeness and I have already spoken with both Susanna and Julia Ortiz
- We are shooting to have all the supplemental files loaded onto your one drive for Susanna/Julia review by mid-morning tomorrow; hopefully half by COB today
- I don't expect the RE to be ready until late Thursday....

Thanks Gino. I'll wait to hear further before uploading this file in FDMS. OSCP doesn't review the files at this point. When I see they are available in the share drive folder, I will upload them into FDMS.

Thanks again.

Subject: First document uploaded

All:

Since this is the first time I am doing this, I just want to make sure I am doing it right.

For asbestos, we have 10 supplemental files and then the charge questions and risk evaluation for a total of 12 files.

I uploaded this first one into the OSCP OneDrive (public). It is a pdf (I did make it 508 compliant) and I believe it is all set for OSCP review.

Will be sending RAD folks other stuff...but wanted to start this now....(hope to have a few more for tomorrow).

Thank...
